Experience

Frontend Developer - [Datamellon Limited](#), Lagos, Sep 2021 - Present

- Currently collaborating with other engineers to develop [kludworks.io](#), a customized cloud payment service.
- Implemented the [Dillivry](#) website from scratch, resulting in a 10% increase in user engagement.

- Collaborated seamlessly with cross-functional teams, contributing to revamping the [Datamellon website](#) and ensuring a unified and polished outcome.
- Worked on [Dillivry Admin](#) backend and implemented a lot of features that bring ease to the platform usage
- Collaborated with senior colleagues to train interns and corps members on React and JavaScript.
- Built a high-performance web application based on RESTful APIs.
- Built scalable, seamless, and responsive user interfaces.
- Used project management tools like Jira and Basecamp to track progress and meet deadlines.

Frontend Developer - [CodeFixBug](#), Abuja, May 2022 - December 2022

- Revamped the [Createtribute](#) and admin websites using React, JavaScript, HTML, and CSS.
- Consumed all necessary APIs to ensure that the website was fully functional.
- Deployed the website to production using a continuous integration and delivery (CI/CD) pipeline.
- Collaborated with the backend developer to ensure seamless integration between the front and back end.
- Implemented designs from Figma to create a visually appealing and user-friendly website.

Frontend Developer Intern - [DevCareer](#), Remote, August 2020 - December 2020

- Worked with team 5 to build the DevCareer V2 website using HTML, CSS, Bootstrap, React, and GatsbyJS.
- Worked with a team of 5 to design, develop, and launch the new website.
- Successfully translated UI/UX designs and wireframes into high-quality code.
- Ensured that all code met specifications and standards.

Frontend Developer Intern - [Start.ng](#), Remote, May 2020 - July 2020

- Developed and maintained the Personal Finance Tracker website using HTML, CSS, Bootstrap, and JavaScript.

- Worked with team 4 to design, develop, and launch the new website.
- Successfully translated UI/UX designs and wireframes into high-quality code.
- Used version control (Git) to track changes and collaborate with team members.
- Used project management software (Clubhouse) to stay organised and on track.
- Completed all tasks on time and within budget.
